At the Chestnut Tree Preschool, we focus on healthy nutritious meals and snacks. We provide the children with a variety of meals cooked on site. A morning snack of either hot or cold cereals, fruits and whole grains. Our hot nutritious home cooked lunches are balanced and consist of soups, pasta, vegetables, chicken or beef. Two snacks are prepared daily. Our afternoon snack is usually a dairy yogurt, applesauce, fruit or granola bar. Water is always available to drink throughout the day.

We only provide healthy, delicious snacks and meal that our children enjoy, and our four-week menu is created with the recommendations of Public Health, Local Dieticians and the Canadian Food Guide in mind. All staff handling food preparation, are certified by Public Health with a Food Handlers Certificate.

Our menus are posted weekly on the parent board. Any changes or substations are added to the posted menus. We ask for your consideration by not allowing your child to bring any food or snacks to the Centre as we have many children who have allergies to certain products.

We are a nut free safe Centre in that we do not cook with nuts or nut oils and we discourage people from bringing nuts into the Centre. Public Health requires that our Centre's be peanut-free environments due to severity associated with peanut allergies. Any outside food brought into your child's Centre must comply with our Centre's allergy restrictions. We kindly ask that all staff and parents respect this policy. It has been demonstrated that even small traces of peanuts can be extremely dangerous to those children and adults with an allergy.

Please advise us upon registration of any food restrictions/allergies your child may have, so that we can try to provide a menu to fit your child's food intake.
